Good morning Commander Cohen & Michael,

I hope you are both doing well. I'm reaching out today to make sure we get this Condor project to completion. There were a few things I wanted to highlight and I have included them down below:

- Commander Cohen - for the trial we will need a Services Agreement completed. Once the camera is installed I have gotten approval for a 60 day trial (Flock typically only does 30 on these). I've included the agreement to this email. If you could please sign and send it back to me I would appreciate it.
- Michael - I know we previously discussed that this location will not need permits. Do you mind if our Project Manager @Darien Watson please gets something in writing from you? We just need it for our records.
- I'll let @Adam Snow & @Tyler Mitchell follow up with you regarding the timeline for this project, but I do know that they were hoping to reinstall soon.

Thank you all for your patience as we have waited for the new product addition to get resolved. Please let me know if you have any questions.

Talk to you soon.
- Anton
